PROFILE

Final-year Information Technology student at North-West University specializing in software development, data engineering, and cybersecurity. Technical toolkit spans C#, .NET, Java, Python, SQL, and web technologies, complemented by growing expertise in cloud platforms, distributed systems, and big data. As Chair of Geekulcha NWU (2025/26), leads a dynamic tech community through hackathons and workshops that connect academia with industry.

EDUCATION

Bachelor of Information Technology

North-West University — Vaal Triangle Campus | Final Year · Expected Graduation 2027

- Focus areas: Data Engineering, Software Development, Cybersecurity
- Coursework: Database Systems, Object-Oriented Programming, Web Development, Networking

National Senior Certificate

Muthuhadini Combined School — Elim Mpheni | Completed 2021

- Subjects: Mathematics, Information Technology, English, Life Sciences

LEADERSHIP & EXPERIENCE

Chairperson — Geekulcha Student Community, NWU

2025 – 2026

- Lead a community of 50+ tech students
- Organize hackathons and workshops
- Build industry-academia partnerships

Deputy Chairperson — Geekulcha Student Community, NWU

2024 – 2025

- Supported event logistics and member engagement
- Coordinated sponsor partnerships

Hackathon Organizer — Geekulcha NWU

2025

- Coordinated student teams in innovation challenges
- Managed event logistics and judging

PROJECTS

- **Expense Tracker Pro** — client-side personal finance web app (JavaScript, localStorage): account creation, income/expense tracking, persistent financial history
- **Football Scouting Platform** (Group Project) — player performance and scouting web app (Python, Flask, MySQL)
- **Calculator** — responsive arithmetic web app with keyboard support (JavaScript, HTML, CSS)
- **Banking Application** — console-based banking simulation with accounts, transactions, and balance tracking (C++)
- **Nate's Burger Shop** — responsive ordering interface with dynamic menu display (HTML, CSS, JavaScript)

CERTIFICATIONS

-
- TryHackMe — Cybersecurity Labs (In Progress)
 - Cisco Packet Tracer — Networking Fundamentals (2025)
 - Geekulcha Annual Hackathon — Attendance Certificate (2023)
 - Simplilearn — Introduction to Cryptography for Beginners
 - Simplilearn — Introduction to Cyber Security
 - MWR — Virtual Internship

TECHNICAL SKILLS

- **Languages:** C#, Java, Python, C++, HTML, CSS, JavaScript
- **Frameworks:** .NET, .NET MAUI
- **Databases:** SQL, MySQL
- **Networking:** Cisco Packet Tracer
- **Cybersecurity:** TryHackMe Labs, Cryptography Fundamentals
- **Tools:** Git, GitHub
